The image shows a development environment with a code editor on the left and a browser preview on the right. The code editor displays the content of a `base.html` file, which includes a `<style>` block for a footer. The browser preview shows a web page titled 'Customer List' with a table of customer data.

```
{% load static %}
<html lang="en">
<head>
<meta charset="UTF-8">
<meta name="viewport" content="width=device-width, initial-scale=1">
<title>{% block title %}My Site{% endblock %}</title>
<link href="{% static 'css/bootstrap.min.css' %}" rel="stylesheet">
</head>
<body>
<div class="site-footer">
<div style="background-color: #003366; color: #ffffff; text-align: center; padding: 10px 0; position: relative; width: 100%; max-width: 1100px; margin: 0 auto; height: 100px; box-sizing: border-box;">
```

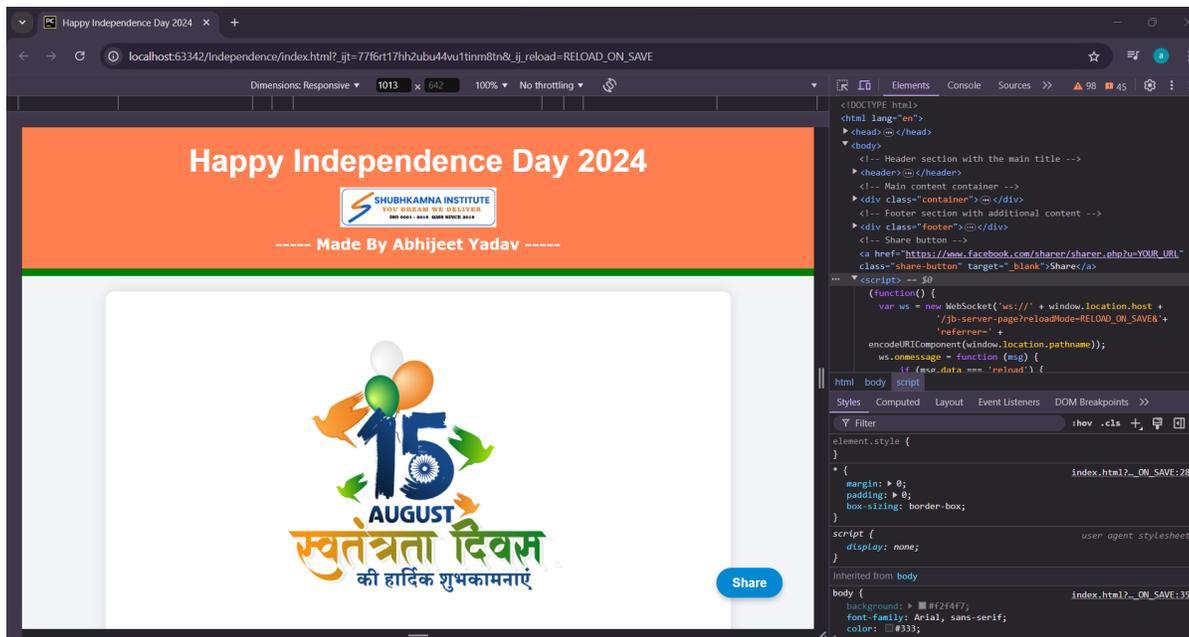

The browser preview shows a page with a blue header 'ABHIJEET' and a main content area titled 'Customer List'. Below the title is an 'Add Customer' button. A table lists customer information:

ID	Image	Name	Mobile	Email	Address	Joining Date	Status	Actions
2		Toys	0000080098	n@gmail.com	raipur	Aug, 14, 2024	True	<a href="#">Edit</a> <a href="#">Delete</a> <a href="#">View</a>

At the bottom of the page, there is a footer with the text 'TechJet Abhijeet Blogs' and 'Created by Abhijeet yadav at TechJet Abhijeet Blogs ©'. There are also links for 'Know More' and 'Terms and Conditions'.
