CONSCIOUS PLANET

◆ WHO WE ARE

Conscious Planet, led by Sadhguru, is a global effort to raise human consciousness and inspire responsible action. It implements several large-scale projects in environment, rural education and health, and community revitalization.

Over the course of three decades, our path-breaking environmental and social initiatives have garnered global recognition from esteemed organizations, including the United Nations, the International Union for Conservation of Nature (IUCN), and the World Economic Forum (WEF), and serve as thriving models for human empowerment and community revitalization worldwide.

“

As it is impossible to imagine Earth without all the flora and fauna, it is also impossible to imagine Earth without soil. Let us all save soil. We have always exploited soil and now we have come to a point wherein if we don't take care of it, we are going to lose more than we can think.
